<b>Day 2</b>			
<b>Day 3</b>			
<b>Day 4</b>			
<b>Day 5</b>			
<b>Day 6</b>			
<b>Day 7</b>			

**The handling arrangements for persons tested positive will be aligned with that for local cases**

- Vaccine Pass will be switched to Red Code
- Please provide information to the Centre for Health Protection through the online platforms (for **nucleic acid tests** or **RATs**)
- If the household environment is not suitable for isolation or the original hotel is not available for on-site isolation, inbound persons tested positive would be sent to Community Isolation Facility or Community Isolation Hotel

\* except inbound persons aged below three years old  
<sup>^</sup> Inbound persons aged three years old or above on the date of arrival at Hong Kong have to undergo PCR-based nucleic acid testing by professional swab sampling at **Community Testing Centres** or **mobile specimen collection stations** (for free), or at **recognised local medical testing institutions** (self-paid), as specified in the relevant testing requirement above

**For detailed boarding, medical surveillance and self-monitoring requirements as well as other details, you should also refer to the latest press releases, relevant information on the webpage and FAQs**
